Germans Soon Ejected.

In the salient of the Leipzig redoubt the Germans entered the lines held by General Haig's forces last night, but were ejected subsequently, London asserts.

The Anglo-French attacks against the German lines north and south of the Somme on Thursday were fruitless, according to Berlin, except on a two-mile front south of Hardecourt where the Germans retired from first and second line trenches about 800 kilometers in the rear.

HOW THE DEUTSCHLAND SNEAKED OUT IN ONLY 60 FEET OF WATER

Chesapeake Bay from Baltimore. British warships are hovering off the three-mile limit beyond Cape Henry and Charles. He must submerge before he reaches that line else he will be sunk. But at the line there are only sixty feet of water. The depth of the Deutschland from superstructure to keel is forty feet and that means that the periscope, wireless and other masts must be taken down as they will not show above the surface of the water. In sixty feet of water the Deutschland will have ten feet above her and ten feet beneath her at the deepest part of the channel.

Some navigators believe she will approach the fifteen-mile limit and then rest on the bottom till darkness. At night she may be able to go out with her periscope a few feet above the waves.

Frederick S. Barde, the well known newspaper man and writer, died at the family home, 512 East Main at 9:05 o'clock this morning after an illness of several months duration, from toxemia. The deceased was forty-seven years of age. He was raised at Sedalia, Mo., where his parents still live.

Mr. Barde entered newspaper work in early life and was employed on the papers at Sedalia for a number of years and then went to Kansas City to work on the Star. He came to Guthrie in 1896 as territorial correspondent of the Kansas City Star and has since resided here with his family.

Eight years ago he severed his connection with the Star and engaged in magazine and special syndicate writing. He also was the author of several books of merit. He was also

SANTA FE TO OPEN UP NEW TERRITORY

ROAD FROM COPAN TO PAWHUSKA IS ASSURED; WORK BEGINS SOON.

Bartlesville, Okla., July 22.—The Independence Reporter says that the Pawhuska citizens have accepted the proposition of the Santa Fe to build a railroad from Copan to Pawhuska.

It made the road two years ago and acquired a large acquaintance over the country who will remember him when the idea of November 10th round.

Mr. Davis says the Big Star oil company's test in Mulhall township is down about 1500 feet and that it is the general opinion that the Ponca City sand has been reached.

While the action of the Santa Fe in projecting line from Copan, instead of Bartlesville and proposing the building of the line just at a time when it would make it hard for the Bartlesville-Fairfax project to be carried out is a little disappointing to Bartlesville people, but it is no way interfered with several other projects.

Connection Assured.

Frank Overton said yesterday that if he and his associates decided to give up the Bartlesville-Pawhuska line it would not interfere with the Bartlesville-Norman project and the Examiner is confident that the long

desired connection with Pawhuska and the west is nearer to consummation than ever before, and that if the present plan should be abandoned there are alternative plans to be acted upon that are promising to say the least.

To Make Plan Work.

Bartlesville is determined to get additional railway facilities and if the plan does not work it is going to find one that will. Pending definite confirmation of the proposed Copan-Pawhuska project the Chamber of Commerce will continue to prepare

to do its part toward the survey of the Bartlesville-Pawhuska line.

PART OF CREEK COUNTY ADDED TO PAWNEE

COUNTY CHANGE APPROVED BY GOVERNOR AFTER VOTERS ASK FOR CHANGE

The result of the election held in a portion of Creek county that seeks to be attached to Pawnee county has been announced to be that the proposition carried. The returns for this election are in the hands of the governor for certifying under the law. This adoption of the proposal by the people of the territory involved, will, no doubt, be followed by the adoption of the proposal by the people of Pawnee county. That will end the aspirations of the people of the Cashin oil fields for creation of a county those with Brumfield or one of the other oil towns as its capital. That is known as the Shaffer county proposal, and has been agitated for several years.

The territory out of which Shaffer county was proposed to be created was to come from Pawnee, Creek and Lincoln counties. It was restricted to an extent that the severance of a portion of it to be attached to Pawnee county leaves too little territory to be made into Shaffer county to meet the requirements of the law.

The proposed new county of Shaffer would have contained the greatest petroleum field in the world. It is claimed that it would have been the richest county in the state with but one exception. The territory is now in three counties, but the bulk of it is in Creek county.

Under the law in this state, no new county can be formed with less than 100 square miles of taxable area and with a population of less than 15,000 persons.

CARL FAIRFIELD SELLS BEE APIARY

On account of being close to this hospital, Mr. Carl Fairfield has sold his apiary of 10 colonies to H. A. Montague. Up to the first of last week there were made almost 500 pounds of honey which will retail for more than the bees were worth. A few days ago Mr. Fairfield bought a pound and a pound of bees in Missouri and from this little store he has built up this bunch of bees, which every year have paid for themselves in honey.

There is no good reason why every farmer should not keep enough bees to produce his own honey, since Oklahoma has so much alfalfa and sweet clover and many other honey producing plants.

OH! IN BIG STAR TEST, IS REPORT

Bart Murphy received word from Mulhall this afternoon that an oil well had been brought in at the Big Star Oil Company's test. The Ponca City sand was reached at 1500 feet.

MUST ENLIST UNDER COLORS OR BE DEPORTED

IN ENGLAND, ONLY RUSSIAN REFUGEES WILL BE EXCEPTED

BRITISH INVEIGH AGAINST THE JEWS

HERBERT SAMUEL, OF THE HOME OFFICE, GIVES REPORT OF ENLISTMENTS

London, July 22.—Wide difference of opinion has arisen and the ground prepared for a controversy among the political leaders by the government's decision that the subjects of its Allies in this war residing in England shall either enlist in the British army or be deported.

Particular objection to the decision has been engendered in so far as it may affect Russian subjects here who may be political refugees a large element of the more liberal thinkers in public life finding themselves in the traditional asylum offered by England in this respect. Herbert Samuel, secretary of the home office, stated in the house of commons that the plan to deport those failing to enlist would not be enforced in the case of Russian subjects, if a tribunal decided that they are political refugees.

The suggestion has been made that instead of sending back to their own country Russian Jews who have left Russia for reasons known to everybody, though they are not exactly political refugees, they should be sent to America or deported to some other neutral country of their choice.

The desire to avoid offending Russian susceptibilities on the subject is general for which reason the question is regarded as one of unusual delicacy.
